How the roles of the OTBA, OTC and AHPRA are involved in the process leading to general registration to practise independently in Australia:

OTBA

The functions of the OTBA include:

- developing standards, codes and guidelines for the occupational therapy profession;
- approving accreditation standards and accredited courses of study;
- registering occupational therapy practitioners and students;
- handling notifications, complaints, investigations and disciplinary hearings;
- assessing internationally-qualified practitioners who wish to practise in Australia.

These functions are supported by AHPRA.

AHPRA

AHPRA is the organisation responsible for the implementation of the National Registration and Accreditation Scheme across Australia. It supports the OTBA. Documentation in relation to gaining registration is provided to AHPRA.

OTC

For registration purposes: The OTC is the assessment authority appointed by the OTBA to undertake the assessment of internationally-qualified practitioners

For migration purposes: The OTC is the assessment authority appointed by the Department of Immigration and Border Protection and the Australian Government, Department of Education and Training to assess qualifications of internationally-qualified practitioners for skill migration purposes (see (ii) below).

ASSESSMENT PROCEDURE

This desktop assessment has a dual purpose:

- i) for internationally-qualified occupational therapy practitioners wishing to migrate and practise in Australia.

Internationally-qualified occupational therapists wishing to practise in Australia must have their skills assessed by the OTC in order to apply for registration to practise as an occupational therapist in Australia.

- ii) occupational therapists who have completed an approved program of study suitable for registration in Australia (please visit <http://www.occupationaltherapyboard.gov.au/Accreditation.aspx>) requiring a qualification assessment for skilled migration purposes.

The Australian Government's skilled migration program is implemented through a partnership between government and industry. The OTC has been appointed by the Department of Immigration and Border Protection and the Australian Government, Department of Education and Training in accordance with the Migration Regulations 1994 as the assessing authority for the occupation of **Occupational Therapist ANZSCO Code: 252411**. For migration purposes, occupational therapy skills are assessed as "suitable" or "not suitable" against the requirements established by the OTC. Internationally-qualified occupational therapists who wish to apply to migrate to Australia under the skilled migration program must have their qualifications and skills assessed by OTC.

- iii) If a migration agent is being used to assist with the process, please ensure the correct address for the assessment letter is included on the Stage 1 application.

Stage 1 is a desktop assessment of qualifications and English language proficiency.

The practitioner will be assessed against the following criteria (all copied documentation must be certified correctly in accordance with the requirements below):

1. Proof of Identity

The practitioner must provide photographic identification (passport or driver's licence) when submitting their application.

If the name of the practitioner has changed and is different from that shown on the qualification upon which they rely for the assessment, then evidence/proof of this change of name should be provided i.e. marriage certificate, Deed poll, divorce papers.

2. Qualifications

The practitioner must demonstrate successful completion of a tertiary education programme leading to an award in occupational therapy (undergraduate or graduate entry). This programme must:

- have been accredited by the World Federation of Occupational Therapy (WFOT) at the time of graduation, and
- be comparable to an Australian Bachelor or Graduate Entry Master degree in accordance with Country Education Profiles produced by Australian Government, Department of Education and Training.

A certified copy of qualification papers must be provided i.e. degree, diploma, certificate, together with associated transcript.

WFOT approval must have been in place at the time of graduation and cannot be considered retrospectively (i.e. if the institution or programme received WFOT approval after the time of graduation, this will not be sufficient to meet the criteria for assessment).

An approved WFOT programme is taken to mean those courses listed on the WFOT website under “Education – Entry Level Educational Programs WFOT Approved” which at the time of graduation was approved.

Certification

All copied documentation must be certified appropriately as true copies of the original by an appropriate person. In Australia, people who are authorised to certify copies are:

- Justices of the Peace (JP).
- Legal practitioners.
- Persons eligible to sign statutory declarations
<http://www.ag.gov.au/Documents/StatutoryDeclaration200602.pdf>.
- Employees authorised by the OTC.

In countries **outside** Australia:

To have copies certified the practitioner must present both the original and the copy to the person carrying out the certification.

Each copy of the document must be certified separately and must show clearly:

- the words "*certified true copy of the original*";
- the signature of the certifying officer; and
- the name, address, position and phone number (with international dialling codes) of the certifying officer legibly printed below the signature. It must be possible, from the details provided, for the OTC to contact the certifying officer if necessary.

Translation of Documents

If the practitioner's qualification has been undertaken in a language other than English, a translated document must accompany the certified copy of the original qualification document. In Australia translation should be undertaken by an accredited NAATI (National Accreditation Authority for Translations and Interpreters Ltd) translator. Further information can be found on its website at www.naati.com.au

An assessment will not be undertaken unless translations are provided.

Authenticity of Documents

If there is doubt regarding the authenticity of documents these will be provided by the OTC Executive Officer to DIBP for an opinion. The OTC will not progress with the assessment until advice has been received from DIBP. The assessment fee will not be refunded.

Documents Unavailable

Practitioners who cannot obtain the required documents should attach a letter to the application form identifying which documents they cannot obtain, and explaining the reasons for this. Each case will be considered, and a Statutory Declaration from the practitioner explaining why documents are unavailable may be required if the assessment outcome relies on unobtainable documents.

Number of Attempts

Practitioners may make an unlimited number of attempts for a Stage 1 assessment. Each repeat application must be accompanied by the appropriate fee. If the practitioner has previously been found to be unsuitable, the practitioner must provide additional evidence to demonstrate how they meet the criteria.

The practitioner has two years in which to commence the Stage 2 period of supervised practice before they will be required to apply for a review of the Stage 1 assessment.

Guidance and Feedback to Practitioners

Practitioners considering or preparing an application for the Stage 1 assessment may seek guidance from the OTC Executive Officer. Where applications fail to meet the OTC requirements for the Stage 1 assessment, practitioners are advised in writing giving reasons where their assessment fails to meet the requirements. They will be asked to provide additional information for the assessment to continue. This documentary evidence must be received within 12 months of the OTC mailing the results.
