STAGE 1 DESKTOP ASSESSMENT

for the

RECOGNITION OF OVERSEAS OCCUPATIONAL THERAPY QUALIFICATIONS

For the purposes of

MIGRATION TO AUSTRALIA

AND

REGISTRATION TO PRACTISE IN AUSTRALIA

ASSESSMENT PROCEDURE

This desktop assessment has a dual purpose:

i) for internationally-qualified occupational therapy practitioners wishing to migrate and practise in Australia.

Internationally-qualified occupational therapists wishing to practise in Australia must have their skills assessed by the Occupational Therapy Council of Australia Ltd (OTC) in order to apply for registration with the Australia Health Practitioner Regulation Agency (AHPRA) to practise as an occupational therapist in Australia.

ii) occupational therapists who have completed an approved program of study suitable for registration in Australia (please visit http://www.occupationaltherapyboard.gov.au/Accreditation.aspx) requiring a qualification assessment for skilled migration purposes.
The Australian Government’s skilled migration program is implemented through a partnership between government and industry. The OTC has been appointed by the Minister for Immigration and Border Control in accordance with the Migration Regulations 1994 as the assessing authority for the occupation of **Occupational Therapist ANZSCO Code: 252411**. For migration purposes, occupational therapy skills are assessed as “suitable” or “not suitable” against the requirements established by the OTC. Internationally-qualified occupational therapists who wish to apply to migrate to Australia under the skilled migration program must have their qualifications and skills assessed by OTC.

iii) If a migration agent is being used to assist with the process, please ensure the correct address for the assessment letter is included on the Stage 1 application.

Stage 1 is a desktop assessment of qualifications and English language proficiency.

The practitioner will be assessed against the following criteria (all copied documentation must be certified correctly in accordance with the requirements below):

1. **Proof of Identity**

   The practitioner must provide photographic identification (passport or driver’s licence) when submitting their application.

   If the name of the practitioner has changed and is different from that shown on the qualification upon which they rely for the assessment, then evidence-proof of this change of name should be provided i.e. marriage certificate, Deed poll, divorce papers.

2. **Qualifications**

   The practitioner must demonstrate successful completion of a tertiary education programme leading to an award in occupational therapy (undergraduate or graduate entry). This programme must:

   - have been accredited by the World Federation of Occupational Therapy (WFOT) at the time of graduation, and
   - be comparable to an Australian Bachelor or Graduate Entry Master degree in accordance with Country Education Profiles produced by Australian Government, Department of Education and Training.

   A certified copy of qualification papers must be provided i.e. degree, diploma, certificate, together with associated transcript.

   WFOT approval must have been in place at the time of graduation and cannot be considered retrospectively (i.e. if the institution or programme received WFOT approval after the time of graduation, this will not be sufficient to meet the criteria for assessment).

   An approved WFOT programme is taken to mean those courses listed on the WFOT website under "Education – Entry Level Educational Programs WFOT Approved" which at the time of graduation was approved.

3. **English Language Proficiency**

Certification

All copied documentation must be certified appropriately as true copies of the original by an appropriate person. **In Australia**, people who are authorised to certify copies are:

- Justices of the Peace (JP).
- Legal practitioners.
- Persons eligible to sign statutory declarations
- Employees authorised by the OTC.

In countries **outside** Australia:

- Notary public.
- Registered legal practitioners (solicitors, lawyers, barristers).
- Australian Embassy or Australian High Commission personnel.

**Family members are not able to certify documents.**
To have copies certified the practitioner must present both the original and the copy to the person carrying out the certification.

Each copy of the document must be certified separately and must show clearly:

- the words "certified true copy of the original";
- the signature of the certifying officer; and
- the name, address, position and phone number (with international dialling codes) of the certifying officer legibly printed below the signature. It must be possible, from the details provided, for the OTC to contact the certifying officer if necessary.

**Translation of Documents**

If the practitioner's qualification has been undertaken in a language other than English, a translated document must accompany the certified copy of the original qualification document. In Australia translation should be undertaken by an accredited NAATI (National Accreditation Authority for Translations and Interpreters Ltd) translator. Further information can be found on its website at www.naati.com.au

An assessment will not be undertaken unless translations are provided.

**Authenticity of Documents**

If the authenticity of documents is suspected they will be provided by the OTC Executive Officer to DIBP for an opinion. The OTC will not progress with the assessment until advice has been received from DIBP. The assessment fee will not be refunded.

**Documents Unavailable**

Practitioners who cannot obtain the required documents should attach a letter to the application form identifying which documents they cannot obtain, and explaining the reasons for this. Each case will be considered, and a Statutory Declaration from the practitioner explaining why documents are unavailable may be required if the assessment outcome relies on unobtainable documents.

**Number of Attempts**

Practitioners may make an unlimited number of attempts for a Stage 1 assessment. Each repeat application must be accompanied by the appropriate fee. If the practitioner has previously been found to be unsuitable, the practitioner must provide additional evidence to demonstrate how they meet the criteria.

The practitioner has two years in which to commence the Stage 2 period of supervised practice before they will be required to apply for a review of the Stage 1 assessment.

**Support and Feedback to Practitioners**

Practitioners considering or preparing an application for the Stage 1 assessment may seek support from the OTC Executive Officer. Where applications fail to meet the OTC requirements for the Stage 1 assessment, practitioners are advised in writing giving reasons where their assessment fails to meet the requirements. They will be asked to provide additional information for the assessment to continue. This documentary evidence must be received within 12 months of the OTC mailing the results.
