OTC – Occupational Therapy Council of Australia Ltd
 OTBA – Occupational Therapy Board of Australia
 Ahpra – Australian Health Practitioner Regulation Agency
 IAHA – Indigenous Allied Health Australia

IMPORTANT

Cultural Responsiveness and Awareness Training

It is a requirement for all internationally qualified practitioners, seeking registration to practise in Australia, to complete successfully a cultural responsiveness and awareness training programme (referred to as “training” in this document) developed by Indigenous Allied Health Australia Ltd (IAHA) on behalf of OTC. The IAHA training is comprised of three levels:

- Levels 1 and 2 are accessible on-line and practitioners need to complete both levels successfully before moving on to Level 3.
- Level 3, preferably, should be undertaken via an on-line webinar “yarning” session hosted by IAHA personnel. These yarning sessions are held on a regular basis and accessed by the IAHA portal. If this is not possible, an on-line module is available.

Upon successful completion of the OTC Stage 1 skills assessment, a link to the IAHA portal will be provided.

You need to complete the IAHA training Levels 1 and 2 successfully BEFORE submitting the OTC Stage 2 application.

The OTC will monitor your progress through the training levels via the IAHA portal.

The OTC Stage 2 application needs to be submitted within two weeks of commencing in an approved position once limited registration has been granted.

The IAHA training Level 3 must be completed prior to submission of OTC final reports. A Certificate of Practical Completion will not be issued until Level 3 training is completed successfully.

IAHA will provide access to review Levels 1 and 2 for a period of 12 months to provide a refresher for Level 3.
